TO OUR BRAND PARTNERS

Thank you for your hard work and dedication. Your success in sharing our great products is to be applauded, and we're excited about LifeWave's future. We have created this document to provide guidance and help you understand what can and cannot be said about LifeWave products.

The U.S. Food and Drug Administration (FDA) has taken the position that all claims surrounding stem cells and healing, even those from natural products, will be regarded as a drug claims. The FDA also asserts that claiming that the use of light to elevate peptides such as GHK-Cu is inappropriate for a General Wellness product.

After a review of our product positioning, our advisors recommended that we remove claims that include the mention of diseases and suggestions of healing, curing, etc. Following the guidance in this document will allow us to remain in the General Wellness category and will insulate us from future scrutiny by the FDA.

GENERAL GUIDANCE

LifeWave products are wellness products. This means that a Brand Partner may discuss how the products are designed to maintain or encourage a general state of health or healthy activity. It also means that claims may not be made about how the products may affect the structure or function of the body or the health benefits that usage provides to the body.

PRODUCTS

X39 PATCHES®

CAN SAY

Optimum health and wellness can now be yours with X39, a new approach to improving the way your body fosters the flow of energy in your body for improvements in strength, stamina and beyond. By gently stimulating the skin with light, our general wellness, non-transdermal patches help you conquer your active lifestyle and pave a new way to vibrant health.

X39 supports the flow of natural energy within your body to encourage and support whole-body wellness and healthy activity

Experience the restorative balance of acupressure and acupuncture well-being with the simplicity of a patch

- New technology stimulates the skin with low levels of light, resulting in improved energy flow
- Supports improved exercise performance
- Supports improvements in strength and stamina
- Supports overall health and well-being
- No drugs or stimulants
- Patented

Stay healthy with X39!

Intended for human use only

OTHER CLAIMS

PHOTOTHERAPY

	Claims you can make	Claims you cannot make
What is Phototherapy?	The science of phototherapy, which has been around for about 100 years, uses light to improve the health of the body. As far back as two thousand years ago, the ancient Greeks had a center for studying the effects of different colored lights on the body. Even the ancient Egyptians, who promoted health by focusing sunlight through colored glass on certain areas of the body, understood this concept .	“Modern forms of phototherapy such as low-level laser therapy, which helps reduce wrinkles and treat other more serious skin conditions”.
How do our Phototherapy Patches Work?	Your body emits heat, including heat in the infrared spectrum. Our patches are designed to trap this infrared energy when placed on the body, which causes them to reflect it back to stimulate specific points on the skin that can promote a general state of health and healthy activity unique to each LifeWave patch.	Your body emits heat in the form of infrared light. Our patches are designed to trap this infrared light when placed on the body, which causes them to reflect particular wavelengths of light. This process stimulates specific points on the skin that signal the body to produce health benefits unique to each LifeWave patch.
What makes one LifeWave patch different from another?	Each patch is exclusively designed to reflect particular wavelengths of energy that stimulate specific points on the skin. This enables each patch to provide unique wellness benefits to the user. No drugs or chemicals enter your body	Each patch is exclusively designed to reflect particular wavelengths of light that stimulate specific points on the skin. This enables each patch to provide unique health benefits (e.g., feeling the pain reduction, feeling the increased energy, etc.). No drugs or chemicals enter your body
