Contains 30 Patches

SUPPORT HEALTHY
WEIGHT THROUGH
DIET & EXERCISE

NO DRUGS
OR STIMULANTS

PATENTED FORM OF
PHOTOTHERAPY

What Is Phototherapy?

The science of phototherapy, which has been around for about 100 years, uses light to improve the health of the body. As far back as two thousand years ago, the ancient Greeks had a center for studying the effects of different colored lights on the body. Even the ancient Egyptians, who promoted health by focusing sunlight through colored glass on certain areas of the body, understood this concept.

How Our Phototherapy Patches Work

Your body emits heat, including heat in the infrared spectrum. Our patches are designed to trap this infrared energy when placed on the body, which causes them to reflect it back to stimulate specific points on the skin that can promote a general state of health and healthy activity unique to each LifeWave patch.

What makes one LifeWave patch different than another?

Each patch is exclusively designed to reflect particular wavelengths of energy that stimulate specific points on the skin. This enables each patch to provide unique wellness benefits to the user. No drugs or stimulants enter your body.

INSTRUCTIONS

Place one SP6 Complete patch on any of the recommended locations shown. For optimal results, rotate the patch between the placements that provide you the most control of your appetite.

Apply the patch to clean, dry skin in the morning. Patches may be worn for up to 12 hours before discarding. Keep well hydrated while using this product.

WARNINGS

Remove immediately if you feel discomfort or skin irritation occurs. Do not reuse patch once removed from the skin. For external use only. Do not ingest. Do not use on wounds or damaged skin. Ask a health professional before using if you have a health condition, any questions or concerns about your health. Do not use if pregnant or nursing. Not intended for use on children. Do not apply/use patches other than as directed. Product to be stored at room temperature.
